FRIDAY OCTOBER 6th 1944

NUMBER 22

Opera House Crowded For Band Concert

The Opera House was filled to the doors Tuesday night, despite the busy season to listen to the splendid concert given by the Canadian Women's Army Band and Pipe Bands. There were about seventy players taking part in the two bands and everyone present enjoyed every number offered.

The bands arrived here about 2 p.m. in five army transports and were billeted out to the different homes in two's and three's to spend the night. Everyone was anxious to do their bit in entertaining the musicians and the girls according to reports enjoyed the acquaintances and contacts they made in this manner. A supper was served in the 2nd Ward Hall before the concert.

The concert started about 8 p.m. and after the opening numbers short addresses in support of the forthcoming Victory Loan were made by Jas. H. Walker, J. W. Evans and others. Then the concert itself proceeded and the numbers were introduced by the Master of Ceremonies and included besides the numbers by the entire band, trios, quartets, solo and various combinations of instruments with the numbers by the pipe band interspersed the other numbers.

Everyone thoroughly enjoyed the entire program and the balance and blending of the sections and the precision in execution of the numbers showed skill and much practice on the part of the members. One could spend a great deal of time and space in an attempt to do justice to the very fine program presented. May we just say that Raymond and district, appreciate very much the visit of the Canadian Women's Army Band as a point for the band to visit on its trans-Canada tour. Raymond people will long remember the fine evening of entertainment provided by the Canadian Women's Army Band.

Mr. and Mrs. J. M. Workman of Cardston were Raymond visitors last week. Mrs. Workman is a sister of Ye Ed.

Misses Vera Meldrum and Adrienne Garner of the Women's Army Band arrived home Monday evening to have a little longer visit with their folks. They came from Lethbridge in a staff car.

With the Airmen

Bill Herbert, former chief announcer at the Vancouver studios of the CBC, is with the corporation's overseas unit covering the invasion for listeners at home. Now CBC war correspondent attached to the Allied Expeditionary Airforce, the Western front is his theatre of operations, and his reports concern the part flying men are playing in the liberation of Europe.

LIONS MEETING

Another regular meeting of the Raymond Lions was held in the 2nd Ward Hall with Pres. 'Mutt' Ralph in the chair.

Secretary Rolison reported that the net sum realized from the character Ball was \$371.61 and the members decided to make this amount up to \$400 and turn it over to the hospital at once.

Secretary Rolison and Lion G. Gibb were asked by the Pres. to see that the Lions who are in the service get their Xmas parcels.

The sum of \$203 was collected by the Club for the Navy League from the sale of Treasure Chest Tickets.

A number of Lions volunteered to go to the Warner meeting which is being held next Thursday.

Jas. Walker was then introduced who gave a talk on the next Victory Loan Campaign.

Lion Myron Holmes was asked to give a musical and Lion Wm. White a speaker for the next meeting.

A special meeting of the next week was called immediately after the close of the regular meeting which closed in the usual manner.

WEDDING BELLS

The youngest son of Mr. and Mrs. Leola C. Woolly, and Audrey, youngest daughter of Mr. and Mrs. Andrew Schutzen, were quietly married in Lethbridge last Saturday afternoon, September 30th, at the home of Bishop Frank Steele, who performed the ceremony.

They received the congratulations of their many friends here Saturday night and Sunday and Monday morning they left for a very brief honeymoon as Paul was returning to his duties in the navy. Audrey has returned to her work in Deth. It's Beauty Salon. We join with their many friends of the newly weds in extending congratulations for a long and happy married life.

Dave Pearson met with a minor accident at the factory early Thursday morning when the flesh was cut off the end of his thumb. Dr. Walker was called and dressed the wound and thought the thumb would completely heal as the bone appeared to be uninjured.

JOE CITIZEN SAYS—

You know I always think it queer that such a land as this one here should have to coax and beg and plead for money for an urgent need. Our loans, I grant you did up strong but how they crawl and creep along! And so one asked to GIVE a dime for just to LEND cash for a time! You'd think that everybody would be happy all the while they could be paid the day that saw our men come back to Canada again. An also help to make it sure—a good round peace that will endure! Yes, sir, we ought to back this loan with every dollar that we own. To stop right now and part and parcel would be to quit the job too soon.

And THAT would certainly look grim to those who offered life and limb. Sir Wm. P. Mulock, Canada's grand old man passed away at his home in Toronto, Ont., early Sunday morning at the age of 101 years. Sir Wm. Mulock, Canada's Premier Mackenzie King, the political trail 42 years ago when Mr. King was made Deputy Minister of Labor when Sir Wm. was Minister of that Department in the Dominion Cabinet.

7th Loan Challenge To Canada

"The objective for the Province of Alberta for the Seventh Victory Loan, this campaign for which opens on October 23rd, has been set at \$43,300,000.00," said Fred Osborne, Chairman of the National War Finance Committee for the Province of Alberta, in an interview today. This objective in the Fifth and Sixth Loans was \$37,000,000.00 in each case, the new objective representing an increase of approximately twenty five percent in the General Sales, and Payroll Sections, and making the Seventh Victory Loan the largest financial undertaking ever accepted in this Province.

Asked to outline the reasons for this heavy increase, Mr. Osborne said in previous Loans, the major requirements were for training of personnel and providing a backlog of ammunition and supplies. Since "D" Day, however, the Armies of Canada have been engaged in actual combat, a much more costly phase of war than the preparation period. The depletion of supplies under such conditions is terrific and demands a continuous flow from factory to boat, from boat to beachhead from beachhead to the front line. Only by having too much can there be enough to guard against exceptional pressure at unexpected points.

Mr. Osborne did not believe that the expected collapse of Germany would at all lessen the need for the greatest financial effort of which Canadians are capable. Should chaos break out in Germany an immense army of occupation would be required, and former enemy countries would have to be similarly patrolled. But the main reason was that the end of the European phase of the war would immediately see intensification of the war in the Pacific, beginning with the transportation of millions of men, and likewise millions of tons of equipment and supplies half way around the world. Any feeling of complacency at this time due to the European situation would be most detrimental to our war effort, and, if given effect to, would undoubtedly unnecessarily prolong the war.

The abolition of compulsory savings, the savings-bank credits at an all-time high, full employment, farm income at peaks never before reached in this Province and the way in which Albertans of all classes had measured up to their responsibilities in previous loans made Mr. Osborne optimistic that the higher objective would not only be reached but greatly exceeded. "In addition, our people are becoming more 'home conscious', as the financial pages show previous loans holding at par or better," he said. Double Bank Interest, which the banks carry makes participation in each campaign not only an act of patriotism but worth while from the standpoint of good business.

The Management Committee of the Alberta National War Finance organization has already held many meetings with those responsible in the various sections for the success of the loan. Others are to be held during the weeks before the campaign opens. It is hoped that it will draw from all walks of life, from whom the bulk of the subscriptions must come, will early review the financial position and be prepared to subscribe early either through the canvasser who will call upon them, through their banks, or through the Payroll canvass of their firm.

"This accepted slogan for the campaign 'Invest in Victory' puts it all in a nutshell," concluded Mr. Osborne.

The members of the Canadian Women's Army Band and drivers of the trucks arrived here from Lethbridge Tuesday afternoon and were billeted out to different homes for the night.

Born to Mr. and Mrs. Johnny Howard at the Lethbridge Hospital at 3 a.m. Sunday morning a pair of twins, one boy and one girl. Mother and babies are doing fine and after the initial shock Johnny is almost normal again.

An old derelict is erected on the McIntyre land east of town and drilling is expected to start very soon. Geologists have been combing the immediate district thoroughly for the past month or so.

A number of beet loaders have been built and some brought into the district this fall to assist in the harvest. Paul Reid, A. E. Foote and Jensen Bros are all trying out loaders this fall.

of men, and likewise millions of tons of equipment and supplies half way around the world. Any feeling of complacency at this time due to the European situation would be most detrimental to our war effort, and, if given effect to, would undoubtedly unnecessarily prolong the war.

The abolition of compulsory savings, the savings-bank credits at an all-time high, full employment, farm income at peaks never before reached in this Province and the way in which Albertans of all classes had measured up to their responsibilities in previous loans made Mr. Osborne optimistic that the higher objective would not only be reached but greatly exceeded. "In addition, our people are becoming more 'home conscious', as the financial pages show previous loans holding at par or better," he said. Double Bank Interest, which the banks carry makes participation in each campaign not only an act of patriotism but worth while from the standpoint of good business.

The Management Committee of the Alberta National War Finance organization has already held many meetings with those responsible in the various sections for the success of the loan. Others are to be held during the weeks before the campaign opens. It is hoped that it will draw from all walks of life, from whom the bulk of the subscriptions must come, will early review the financial position and be prepared to subscribe early either through the canvasser who will call upon them, through their banks, or through the Payroll canvass of their firm.

"This accepted slogan for the campaign 'Invest in Victory' puts it all in a nutshell," concluded Mr. Osborne.

The members of the Canadian Women's Army Band and drivers of the trucks arrived here from Lethbridge Tuesday afternoon and were billeted out to different homes for the night.

Mr. Wm. C. Stone is leaving from Lethbridge by plane on Saturday this week for a month's visit with relatives and friends in Salt Lake City and other points.

People are busy now after last week's storm getting garden stuff in and stored for winter. Good yields of potatoes are reported by gardeners and the tubers are fine quality.

Remember the Next-of-Kin Supper and Dance next week to raise funds for parcels for the men and women in the Armed Services. This is your chance to help a good cause and make a merry Christmas for the ones away from home.

Wally Duncombe, of the Canadian Active Army arrived home from Lethbridge on Thursday. He was wounded in the early stages of action in Italy when he was shot in the left hand and has been in hospital in England for several months being sent home now on sick leave.

Cherniavsky Brothers To Present Concert

SNOW STORM SOAKS FIELDS

Whipped by a north wind and preceded by a couple of hours rain, the first snow of the fall season arrived Friday noon of last week. The mercury didn't get down much, but the storm was wet, and driven by the wind it was cold if one were out in it very long. It fell fast too and roads and fields were really soaked when it stopped.

Beet digging had just gotten under way and storage piles were getting low when digging resumed again on Monday & deliveries started Monday afternoon. Beets are rolling into the yards in a steady stream now from early morning until long after dark and when the hauling restrictions were lifted yesterday the momentum of hauling really speeded up. Grain harvest was practically finished before the storm arrived so the only holdup was on the beet harvest and the off field of unharvested hay.

The storm was welcomed by everyone as it brought the most moisture of any single storm of the autumn. A frost in the early hours of Sunday morning finished under vegetation and cleared up the weeds and when that sun got to work Sunday and Monday things really dried out rapidly.

WORLD SERIES NOTES

The World Series in baseball is under way in St. Louis. For the first time in their history the St. Louis Browns have made the big time in baseball and by a quirk of fate they are battling out the series with their home town team of the National League, the St. Louis Cardinals. In the play so far the two teams seem to be very evenly matched and it looks like an interesting and hard fought series.

Wednesday in the opener on the Cardinals grounds, the Browns won 2-1. They went scoreless for several innings when a slight by Moore was followed by a homer by McQuinn to give the Browns the lead, the cards putting their run in their half of the ninth.

Thursday at the end of regulation play the score was tied at 2 all. Going into extra innings they battled through the tenth and the Browns half of the eleventh without a score, and when in the last half of the frame the Cardinals pushed one over to win the game and tie up the series.

Today the play moves over to the Browns and lot for the third battle and prospects look like a real struggle for the series leadership and a sell out of tickets for the grounds.

Friday's game was won by the Browns with a 6-2 score.

JOE CITIZEN SAYS—

Some think the war is fairly close—some take a quite contrary view. Me, I prefer to wait and see, but with one viewpoint I agree, and that is we must early on with the need for help is gone. Suppose the fighting all was done the peace would still have to be won and that, if I am seeing right, we'd be a job done overnight. No, sir, we won't for many a day from war-time rules get clear away. War's ooze has certainly been steep and lasting peace will not come cheap.

So dreams of good times let us quit and to our country's needs submit. Let's lend our money anyhow—that's what we're asked to do right now, and, personally, I just plan to try in every bank I can.

ATHENAEUM CLUB MEETING

The Athenaeum held their regular monthly meeting at the Public Library on Oct. 2nd. Pres. Oral Wiggell took charge and the minutes of the previous meeting were read and approved. A few minutes was spent on business and announcements on "The Origin and History of Holidays" were made for the next month's meeting.

The rest of the evening was then spent on a round table discussion of the Educational System of Canada, covering such topics as "Early Canadian schools, the progress and different types of libraries in Canada, Occupations available for women after the war, and Post-War vocational and University training for ex-service personnel." The meeting concluded with an interesting article, given by Kay O'Connell, entitled "Are Small Towns Doomed?"

The meeting was then adjourned.

Ready to Tell

Chas. Wallace and her surprising information about people and events provide the tenets of the new "They Tell Me" program which returns to the Trans-Canada Network of the CBC Wednesday Oct. 4 at 12:45 p.m. CDT. The program will be heard three-weekly on Mondays Wednesdays and Fridays.

CANADA TOMORROW

New Canadians and all who aspired to be Canadians, what will the future hold for our great and glorious country? In the accomplishments of the past few years we have discovered that when Canadians put their collective shoulders to the plow of the future, the results are not only good but also profitable. The war have sprung up in hitherto unknown and almost unexplored places, and the power added to the power of the Allies has been definitely increased by Canada's part.

It is a well known fact that in natural resources we are probably the richest nation in the world with vast reaches of wealth still untouched even after the twelve years of war. What will we do with these resources and these facilities when peace comes? Will we allow them to stand idle and will we continue to export raw materials and import manufactured goods to keep a working army in some other country, or will we use these plants to produce time production to keep our own people busy, to swell our population and to make the nation a nation of sparsely settled but valuable land?

The answer rests with you and I and the other eleven million people who make up Canada. It is not so much a question of Government policy nor of which party holds power. It is not so much a question of immediate policy as it is the future of the people. In the past we have produced the raw materials and have shipped them thousands of miles to have them manufactured into the things we wanted and then shipped them back. We have reached the state now where factories should be brought to the farms and the fields of the prairies to utilize our produce at the source of production. It means higher prices for the producer and lower prices for the consumer because of a shortening of costs in the production of the finished goods.

A higher standard of living cannot

CO-OPERATION'S ACCOMPLISHMENTS

Here is what a co-operative spirit did for Sweden:

Kept its total unemployment to less than one-half of one per cent of its 6,248,000 people;

Kept its industrial production at a level 12 per cent greater than that of 1929;

Kept buying power stabilized;

Balanced its budget and piled up a large treasury surplus;

Curbed monopoly;

Raised farm prices without raising food prices or resorting to an "economy of scarcity;"

Driven down the general level of prices;

Achieved a high degree of amity between capital and labor;

Housed all its people adequately;

Lowered cost, practically eliminated slums;

Tranquilly lowered medical costs to the people;

Preserved its forests, although timber is its largest industry (the United States is the second largest producer of Swedish timber).

Reduced venereal disease to "a practically irreducible minimum."

With state-supported hospitals, an average patient costs only \$12.50 and this includes the entire hospital bill.

The average cost of electric power is two cents a kilowatt hour.—W. L. Husbard in the Co-operative Consumer.

"How come you didn't turn out?" commended the sergeant. "Didn't you hear the bugle blow rattle?"

"Honest, sergeant, I'm afraid I'm going to be a flop as a soldier. I don't know one darn tune from another."

"Eternity is so vast—who can comprehend it?" said the speaker.

"Perhaps," said the little man in the back row, "you never bought anything on the monthly payment plan."

be legislated into existence nor can it be maintained by a set of laws nor tariffs. It must come from the demands of the people and a planned economy in theory and practice that will bring producer and consumer to a better understanding of each other's needs and desires with less of the selfish man who in most instances gets rich by beating down the producer and holding up the consumer.

CHUTE FAILS, FALLS 3,000 FEET. DOESN'T BREAK A BONE

WITH AMERICAN TROOPS ON MOROTAI ISLAND, Moluccas, Sept. 25—Pie Joe Aiello plummeted 3,000 feet when his parachute failed to open, and yet escaped without a single broken bone. Tree tops broke the fall of the youth from the Bronx, N.Y. Doctors theorized that the fact he was unconscious when he hit the trees and relaxed when he landed probably saved his life. When he came to, Aiello said, "I was scared to open my eyes for fear I might see angels."

W. D. Albright—A Tribute

Throughout Western Canada, W. D. Albright is known as the author of "Timely Hints from the Beaverlodge Station." In the Peace River Block, he is known as a pioneer, a good farmer, superintendent of the experimental station, a wonderful host and a wise counselor.

Few, if any, men in the Dominion Experimental Farms Branch have worked as hard as has Mr. Albright, and none has reaped a greater reward. The Beaverlodge Station has grown out of Mr. Albright's homestead and its influence is apparent throughout "The Peace." His interest in the discoveries of agricultural science has never flagged and he has devoted his life transforming these discoveries into more successful farm production and more attractive farm homes.

Few men become great, because greatness can only be born from the union of talents and hard work. Mr. Albright has not "buried his talent." Farmers and professional agriculturalists alike owe him a great debt.

As a result of hard work—perhaps too hard—Mr. Albright is obliged to rest for a period of three months. He, and his many other admiring readers, will readily forego the pleasure of reading "Timely Hints" for a time, provided we can look forward to an early reappearance. We all gladly join in wishing him many more years of good health and of service to Canadian agriculture.

NOTICE

TO WHOM IT MAY CONCERN

NOTICE is hereby given that by authority of Section 216 of The Municipal Districts Act, R.S.A. 1912, the Reeve and Council of the Municipal District of Sugar City No. 137 propose to pass a By-law authorizing the closing of and selling to suitable purchasers the following described street:

All of that street lying between the S. 1/4 of S.E. 1/4 of Section 22, Township 6, Range 20, West of 4th, and lots 26, 27 and 28 in Plan 1344 J, Raymond.

Any person or persons interested in said abutting lands along the said street, having any objection to the said street being sold, shall file such objection with the Secretary-Treasurer of the M. D. of Sugar City No. 137 on or before November 14, 1944.

Dated at Raymond, Alberta, this 20th day of September 1944.

D. M. Holaday,
Secretary-Treasurer.

Jas Weaver of the R.C.A.F. at No. 5, Lethbridge was home on Tuesday.

"ANY GUM, CHUM?"

OVERSEAS PLAN WELCOMED

One of the most popular slogans heard overseas by Canada's armed forces in Africa, Italy and France—is "Any Gum, Chum?"

Sailor scold and airmen have filled their letters home about how doubly welcome they are wherever they go if they have some chewing gum. The demand became so great on Canadian manufacturers, that the Wrigley Company started a plan some months ago to ship to our boys and girls in the Armed Forces Overseas, all of their production of chewing gum as ordered by friends and relatives in Canada. They have already shipped tens of thousands of boxes overseas on this plan and hundreds of acknowledgments have been received by the folks at home.

Retailers throughout Canada are co-operating by handling the order forms which enable their customers to conveniently place orders for immediate shipment to the loved ones overseas.

If the Government would act the plan could be extended to include shipments direct to Canadian prisoners of war.

Each of us is both consumer and producer.

As a producer each of us would like to get MORE money for our goods or services.

As a consumer each of us wants the costs of living kept down.

But we can't have it both ways.

As long as goods are scarce and money plentiful, prices have to be controlled or they'd jump sky high.

If prices are to be kept down, then costs of production including salaries, wages and raw materials must also be controlled.

One Person Can Start It!

When any one of us—

- offers to pay more than legal prices;
- asks higher returns for his services;
- asks higher prices for his goods.

He helps start a chain that forces every one else to do the same and nobody is better off.

THIS IS ONE OF A SERIES ISSUED BY THE GOVERNMENT OF CANADA TO EMPHASIZE THE IMPORTANCE OF PREVENTING FURTHER RISE IN THE COST OF LIVING NOW, AND DEFLATION LATER.

The Payment of Your

BACK TO SCHOOL

School commenced Monday in both Raymond Schools, with the largest first day enrollment ever. In the High School there were 292 registered, and in the Public School 500 enrolled.

The board has encountered some difficulty in procuring teachers, and the High School is definitely short. When school commenced it found only eight teachers for the 292 pupils. This means that there is one class without a teacher and no teachers to supervise study classes. This is a situation which by now may have been overcome as one teacher is expected to arrive daily to take up his work, but up to our writing this he had not done so with the resulting shortage. All agree of course, that the training of our boys and girls is the biggest question of the day and teachers must be found to care for them and give them the necessary training and guidance.

Following are the teachers at the High School: L. H. Jacobs, principal; L. L. Harker; A. M. Cooper, M. T. King, H. D. Dan Rolison, Mrs. Riddell, Altra Sommerfeldt and M. C. Vance. The Public School students lined up Monday morning to be assigned their rooms and teachers, eager after

the long holiday to be at their books and studies again and following is the staff headed by Principal J. O. Hicken, Melvin Bridge, Fay Broadbent, Ethel Hudson, Irene Milson, Martha Woolley, LaFern Harker, Ethel Stutz, Velma Redd, Edna Loxton, Gladys James, Alice Ross and Norma Smith.

NEWS NOTES

Buy War Savings Stamps regularly

Stoker Paul Woolley left on Monday's bus to report back to the Navy officials in Halifax for posting. He has enjoyed an extended leave at home.

At Rotary on Monday last Jas. H. Walker, Victory Loan Chairman gave a very interesting talk on the forthcoming Victory Loan. There was a good attendance and a very interesting program resulted.

The young man went into the shop and said to the cashier: "I wish to pay the last instalment on the perambulator." The smiling cashier handed him the receipts and asked: "And how is the baby?" "Oh, I'm feeling fine, thank you," was the reply.

HERE'S MY FEED PROBLEM

My dairy feeds seem to be costing more than they should.

HERE'S THE ANSWER

You may be overfeeding some of your cows. Keep a written chart of milk production and switch to "Miracle" Dairy Feeds. Tests show that "Miracle" Dairy Feeds cut feed costs about 20% and increase milk production as high as 25%.

ASK FOR "MIRACLE" FEEDS

Thrift... IS PRACTICAL PATRIOTISM

How many ways can you saveto LEND TO CANADA?

In the homes, all over Canada, loyal, patriotic women are discovering new ways to economize... new ways to save money to lend to their country. A little saved here and a little saved there provides money to lend to Canada to help pay for the war. Small sums from millions of Canadians mount to billions when totalled up.

The amount that you may lend to your country may seem a small sum to you, but pennies make dimes and dimes make dollars, and Canada needs every single dollar that every Canadian can save and lend. Canada's need for borrowing is greater now than ever before. Every Canadian must lend, and lend more than before. Money you save and invest in Victory Bonds will benefit you in a personal way, too. You will have cash, when the war is over, to buy things you want for your home... things you are doing without now... cash to pay on a new home... to pay on a new car.

OUR AIRFORCE SONS WEDDING

The year is nineteen forty-four,
Tis the second day of June
The very month our brides they say
When all the flowers are in bloom

Our eldest son was wed today
And somehow it makes me sad
To think he's really a grown up man
And not a chubby little lad.

He joined the ranks of the Airforce
blue
And I learned to build our planes
That our pilots may down the Axis
horde,
So that peace may ever reign.

Oh I've longed for a daughter dear
To be to her a friend and pal
And now I've got a grown up one
But still she's just a little gal.

This daughter of ours is just a kid
For eighteen years is not so old
We really think a lot of her
And truly welcome her to our fold.
Once loss is another gain they say
And we have gained a daughter
The other parents have gained a son
We think there is none better.

When the war is over and they settle down
In a place that's all their own
May the blessings of God upon them
rest
And life merites to them be shown

Have this that before you off my fears
And think of him on high
For he will never let you down
So to keep his Commandments try.

The road of life now stretches far,
In the many years to come
May their joys be many and their sorrows few
In these two kids future home,
God bless these boys of the Airforce
blue
The pilots and gunners that soar on high
The L.A.C.S and all the ground crew
God grant they'll be home bye and bye
—Mrs. Oscar Johnson

FALL CULTIVATION VALUABLE

Tests at Experimental Stations and the results on many southern Alberta farms have proved the value of the practice of shallow fall cultivation on grain land. Many good farmers have given their stubble a shallow working in the fall and they are enthusiastic over the results.

Weeds and insects are the bane of the field. Farmers experience untold losses from weeds, and grass hoppers threaten to become a worse menace in 1945. In some parts sawfly harvested thousands of acres of crop this year. Fall cultivation will help to control all three pests.

Grasshoppers have been noted laying eggs in the stubble for the last several weeks. This is especially true in weedy stubble and in some cases on weedy fallow. Shallow cultivation which will bring the eggs to the surface insures the full effect of weather upon them and reduces the number which hatch in the spring. Insect eggs cannot endure drying out nor the heat of the sun. The same sort of cultivation which will bring the grasshopper eggs to the surface tends to cover weed seeds shallowly. This helps to "freeze" fall or early spring germination. Once the weeds are growing they can be killed by weather or trampling. Sawflies spend the winter as a cocoon in the stub of the wheat.
